PORTFOLIO

You can find the projects listed below on my personal website at www.sezdev.com. Please refer to the *readme* document of each repository for additional information on any given project.

Snoya - Custom Headless Shopify Storefront

This is a custom, headless Shopify storefront built with Remix, React, and TypeScript. It features a fully responsive UI using TailwindCSS and Shadcn, Zustand-powered cart state, and integrates Shopify's classic customer accounts with dynamic content via metafields.
